

# ANNA

**AGE:** 19

**NATIONALITY:** HUNGARIAN

**BACKGROUND:**

Anna is the eldest of six children. Her mother passed away when she was 15 leaving her to care for the home and her siblings. Her father expected a lot of Anna and she worried that she would never have a life of her own outside of her family responsibilities.

Anna had worked hard at school to get a good education but because of her family situation was unable to afford to go to college or university. Anna worked at a dry cleaners full-time to bring extra money into the home but she was desperate to make more money so she could save for further education. She was really excited about the prospect of working as a waitress in Ireland as she was told it would pay enough for her to save for schooling and send money back home.

Anna speaks very little English and has never been away from her home country before.
